Scott Lyman

3391 E 200 RD N, RIGBY, ID 83442

To Whom it May Concern,

Thank you, Scott Lyman & HKL Diversified LLC. for coming out to our location and providing an excellent Hazardous Waste Operations and Emergency Response (HAZWOPER) 24HR Training course for our Emergency Response Team. Not only did we need the training, but we also had to accommodate for a facility that operates 24/7 and required a complex schedule for the courses. Scott was able to work with our scheduled times, which required twelve classes to be spanned out two times a week. During instruction, we had experience levels that ranged from members responding to real emergency incidents looking to refresh their knowledge, to new members taking a HAZWOPER course for their first time. Everyone was able to retain information and learn something from this training course.

HKL was able to provide the HAZWOPER course at our facility and customize the program so that it was relevant and applicable to our location. Scott also took the time to review our emergency response plan and spill response procedures and included this information during his course of instruction. During the training Scott also worked behind the scenes with the Emergency Response Team leadership and helped coordinate a training exercise that would put all the training together. It was especially valuable to gain a deeper understanding of the team's collaborative approach and how this training and everyone's role contributes to the overall success of our facility.

Thank you again Scott and the HKL Diversified team for your time and insights. We appreciate the training and look forward to staying in touch for future opportunities.

Best regards,

Cody Breshears
